

Roof Ventilation

The Australian climate is variable – Summers have extended periods of high temperatures, and in some areas we see prolonged periods of continual wet weather. From these conditions it puts pressure on the home to cope with hot and damp extremes. The answer is to drive heat and moisture out of your home throughout the year, Solatube Solar star provides a cost effective solution.

Drive out heat and moisture

More airflow

Advanced solar panel technology generates maximum power through a large 320 diameter fan.

Tailored roof tile

Seamless one piece flashing guarantees a leak-proof and durable product. Customised to your roof.

High-performing

High-performance motor is reliable, long lasting and whisper quiet. Installed in under 1 hour by a Solatube Certified Installation consultant.

Leading warranty

Brush-less, durable motors and quality components throughout.
